PROFILE

I'm a Frontend Web Developer specializing in building exceptional digital experiences. I have a deep understanding of how to translate high-fidelity UI mockups into high-performing, accessible web experiences. I am skilled in using a variety of technologies to create sleek, user-friendly websites and web applications that meet the needs of my clients.. I develop quality, user-friendly and scalable products using modern frontend web technologies.

WORK EXPERIENCE

02 2023 - Present
Lagos

PROJECTS

TravelVille

This is a travel agency website theme using Materialize CSS 1.0 without jQuery. Utilizing plugins like Scrollspy, Material Box, Sider, and Sidenav using only Materialize JavaScript and vanilla JS. It is live at: https://traveleville.netlify.app/

Hulu

This is a clone of the Hulu Webpage using HTML, modern CSS3+ techniques, and a bit of JavaScript for the tabs. It is live at: https://hulu7.netlify.app/

Manage	Manage is a minimal landing page for software teams to plan day-to-day tasks while keeping the larger team goals in view. I built the frontend from the ground up using Tailwind CSS. It is live at: https://managee7.netlify.app/
Microsoft	This is a clone of the Microsoft website using HTML, and CSS. it is live at: https://microsoft7.netlify.app/
